Alisa,

We have not received the administrative review yet. However, I don't anticipate any major issues or any concerns. I suggest submitting your proposal to TOPMed. Many TOPMed proposals are submitted first to TOPMed and then they go through JHS P&P review.

Best,

Adolfo

Dear PPS Administrative Team,

We are nearing the end of the 2 week period for cohort review and I wanted to check in with you all regarding TOPMed proposal #1229 ("Whole genome sequence analysis for fasting glucose and fasting insulin levels in diverse cohorts from the NHLBI TOPMed Program").

We plan to submit our paper to the TOPMed for administrative review very soon, and I realized that I didn't have a response from JHS. Are there any concerns regarding the paper? In case an email has been sent, could you please tell me the date & subject line so I can go look for it?

Thanks!

Alisa Manning

Hello!

Could I please submit the manuscript linked to below for expedited review, under TOPMed proposal 1229? A review as soon as possible would be a big help (ideally by November 16).

I know as a co-author I cannot formally review, but I see no potential for stigmatization, JHS co-authors are represented (me, Leslie Lange, and Adolfo), and acknowledgments look ok. Cc'ing everyone in so they know that this has been sent to P&P.

Dear Laura and Adolfo –

I am writing to request expedited review of our manuscript by the JHS cohort, as we have a funding requirement that we meet a November 30th deadline for manuscript submission.

Please let us know if you have any questions or concerns, or if you anticipate a delay in the cohort approval process.

Many thanks,

Alisa

Hello co-authors!

We are sending you the penultimate manuscript "*Whole genome sequence analysis for fasting glucose and fasting insulin levels in diverse cohorts from the NHLBI TOPMed Program*" from the TOPMed T2D Working Group. We plan to submit this to the American Journal of Human Genetics as a (short format) Report.

To meet a fiscal grant deadline of **November 30th** we are requesting your **quick** responses:

1. **Co-authors:** respond to us that you approve the manuscript in **by Wednesday, November 11th**.
 - a. Please check your affiliations and acknowledgments
2. **Study/PI of study:** submit to P&P committees or respond to us that as Study PI you approve manuscript immediately so we can document where it is in the approval pipeline (we have to document this for submission to TOPMed P&P before we receive approval to submit to journal)
3. **Comments on manuscript:** send comments **by Monday, November 16th** (Earlier if possible, please)
