CAUTION: External Email *

Dear Dr. Sedlazeck

I apologize for my overly hurried action on this, which I was unable to correct in the TOPMed system - I defer to the PCGC investigators Seidman and Gelb and hadn't realized that this was a paper ready for submission rather than a proposal.

Please consider this an approval of the use of PCGC data for your publication.

Apologies again for likely causing stress where it wasn't warranted,

-- Michael

Dear Dr. Wagner,

Could you please provide more information why the manuscript was disapproved? This is a reporting of the SV that we identified as part of the Topmed IRC funding we received earlier. Thus the work just summarizes a resource for the Topmed investigators.

We had prior communication with:

Bruce D. Gelb
Christine E. Seidman
Jonathan G. Seidman

I would appreciate if we could resolve this issue together and move forward.

Thank you

Fritz

Good Morning, Dr. Sedlazeck.

Your manuscript #14349 currently has Disapproved status. I am pasting the

concerning review comments below for your manuscript #14349:

Review/comments from Michael.Wagner@cchmc.org

Review status: Disapproved

Please describe your specific concerns and reasons:

Not disease specific use of data.

Which dataset are you representing?: PCGC_CHD:DS-CHD

I have attached Dr. Wagner to this email in order for you to consult with him and remedy this. Please update us on any resolution. We will need an email of approval/resolution on record to proceed with manually approving the manuscript. (We can update your uploaded manuscript to include any edits that may result from this resolution.)

Best,

Ashley Smith on behalf of the TOPMed ACC
